

ACCESS COMMUNITY HEALTH NETWORK

Providing affordable, quality health care among Chicagoland's medically underserved

ABOUT ACCESS

With 50 health centers in Chicago, suburban Cook and DuPage counties, the nation's largest network of community health centers. Projected to serve 200,000 patients this year, ACCESS' mission is to **provide high quality, cost effective, safe, comprehensive primary and preventive health care in underserved Chicagoland communities.**

FOR ALL

All patients are welcome at ACCESS! We accept Medicaid, Medicare, All Kids, and all major health insurance plans. If you are uninsured, we offer a sliding fee scale based on ability to pay.

About 60,000 ACCESS patients are uninsured, and 120,000 are Medicaid beneficiaries.

QUALITY

At ACCESS, patients can develop a relationship with a regular doctor and can receive consistent quality care during every visit. A patient-majority Board of Directors help make sure that our services are tailored to our patients' needs.

Accredited by the Joint Commission for Accreditation of Health Organizations (JCAHO), ACCESS' quality of care ranks in the top 10 percent among community health centers in the nation.

For more information, or to make an appointment at an ACCESS health center near you, please call us toll-free at 1.866.882.2237.
